Application

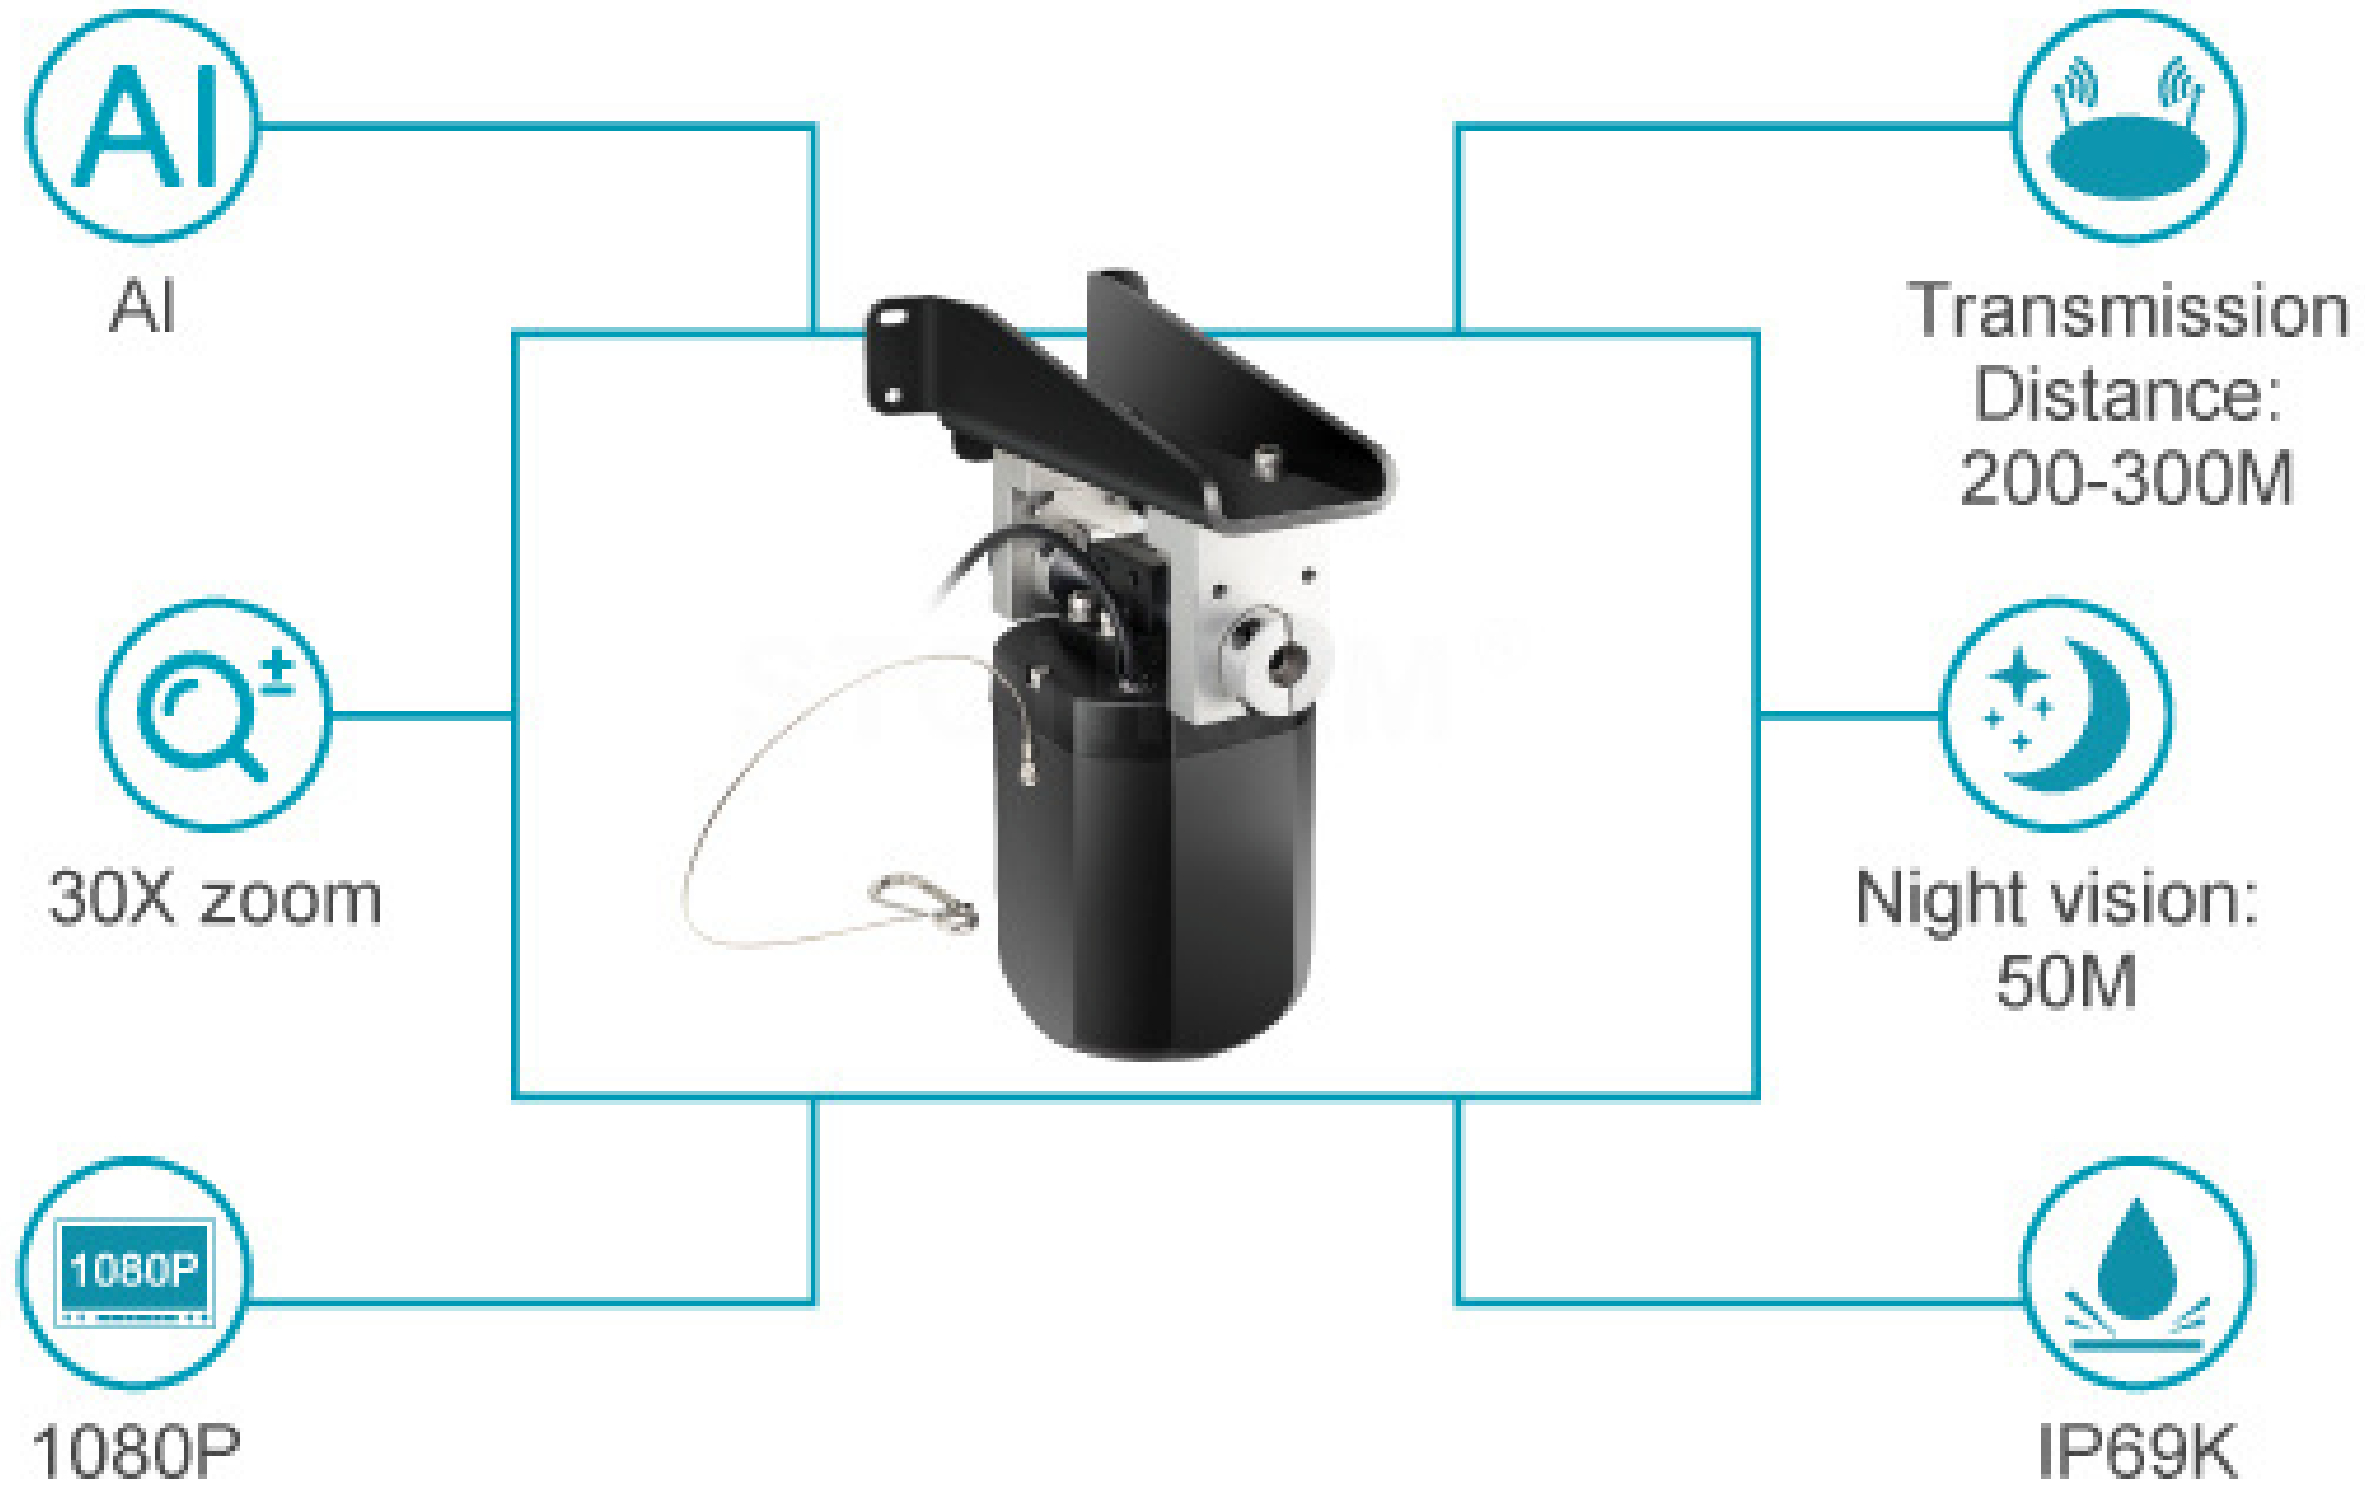

ABOUT THE SOLUTION

- **1080P 30x zoom & wireless camera for crane is flexible in zooming and has an AI pedestrian detection algorithm inside.**
- **The installing of such a zoom camera will make the operation of cranes easier, safer, and more efficient for sure.**
- **This camera can be widely applied in port cranes for bulk cargo loading and unloading and other industrial and construction machines.**

SYSTEM SPECIFICATIONS

Built-in AI algorithm

Real-time detection of people around the lifting goods in crowded construction sites or busy ports reminds the operator of any collision risks.

Flexible Zooming Method

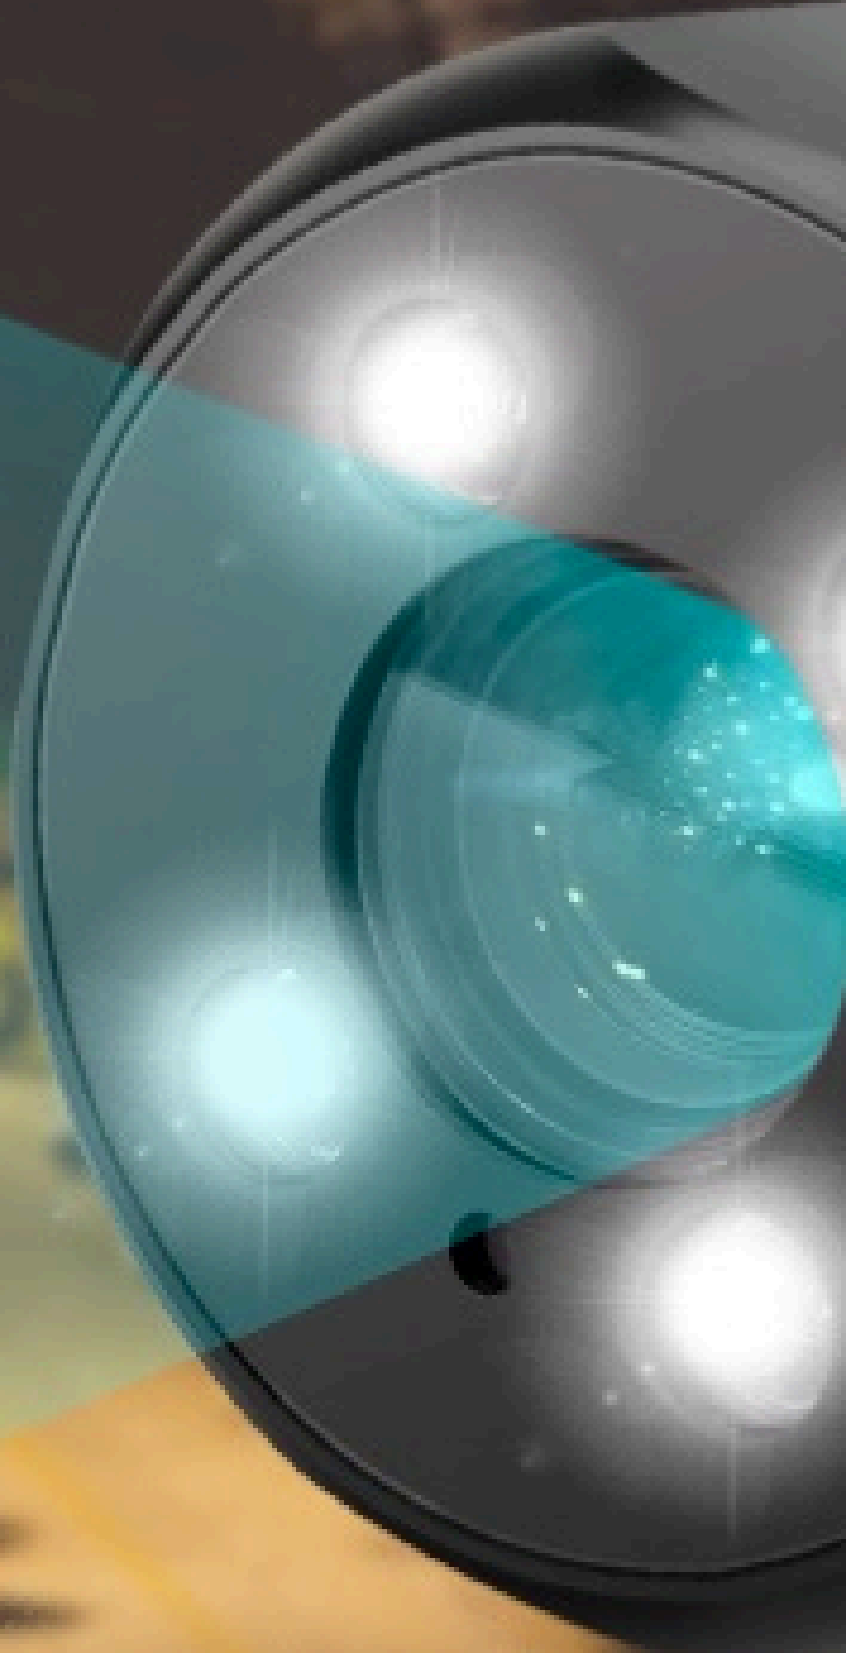

Can control zoom-in/out and switch between manual/automatic zooming through a foot switch, improving camera working efficiency.

**4 high-power infrared lights, 50-meter high-definition
night vision**

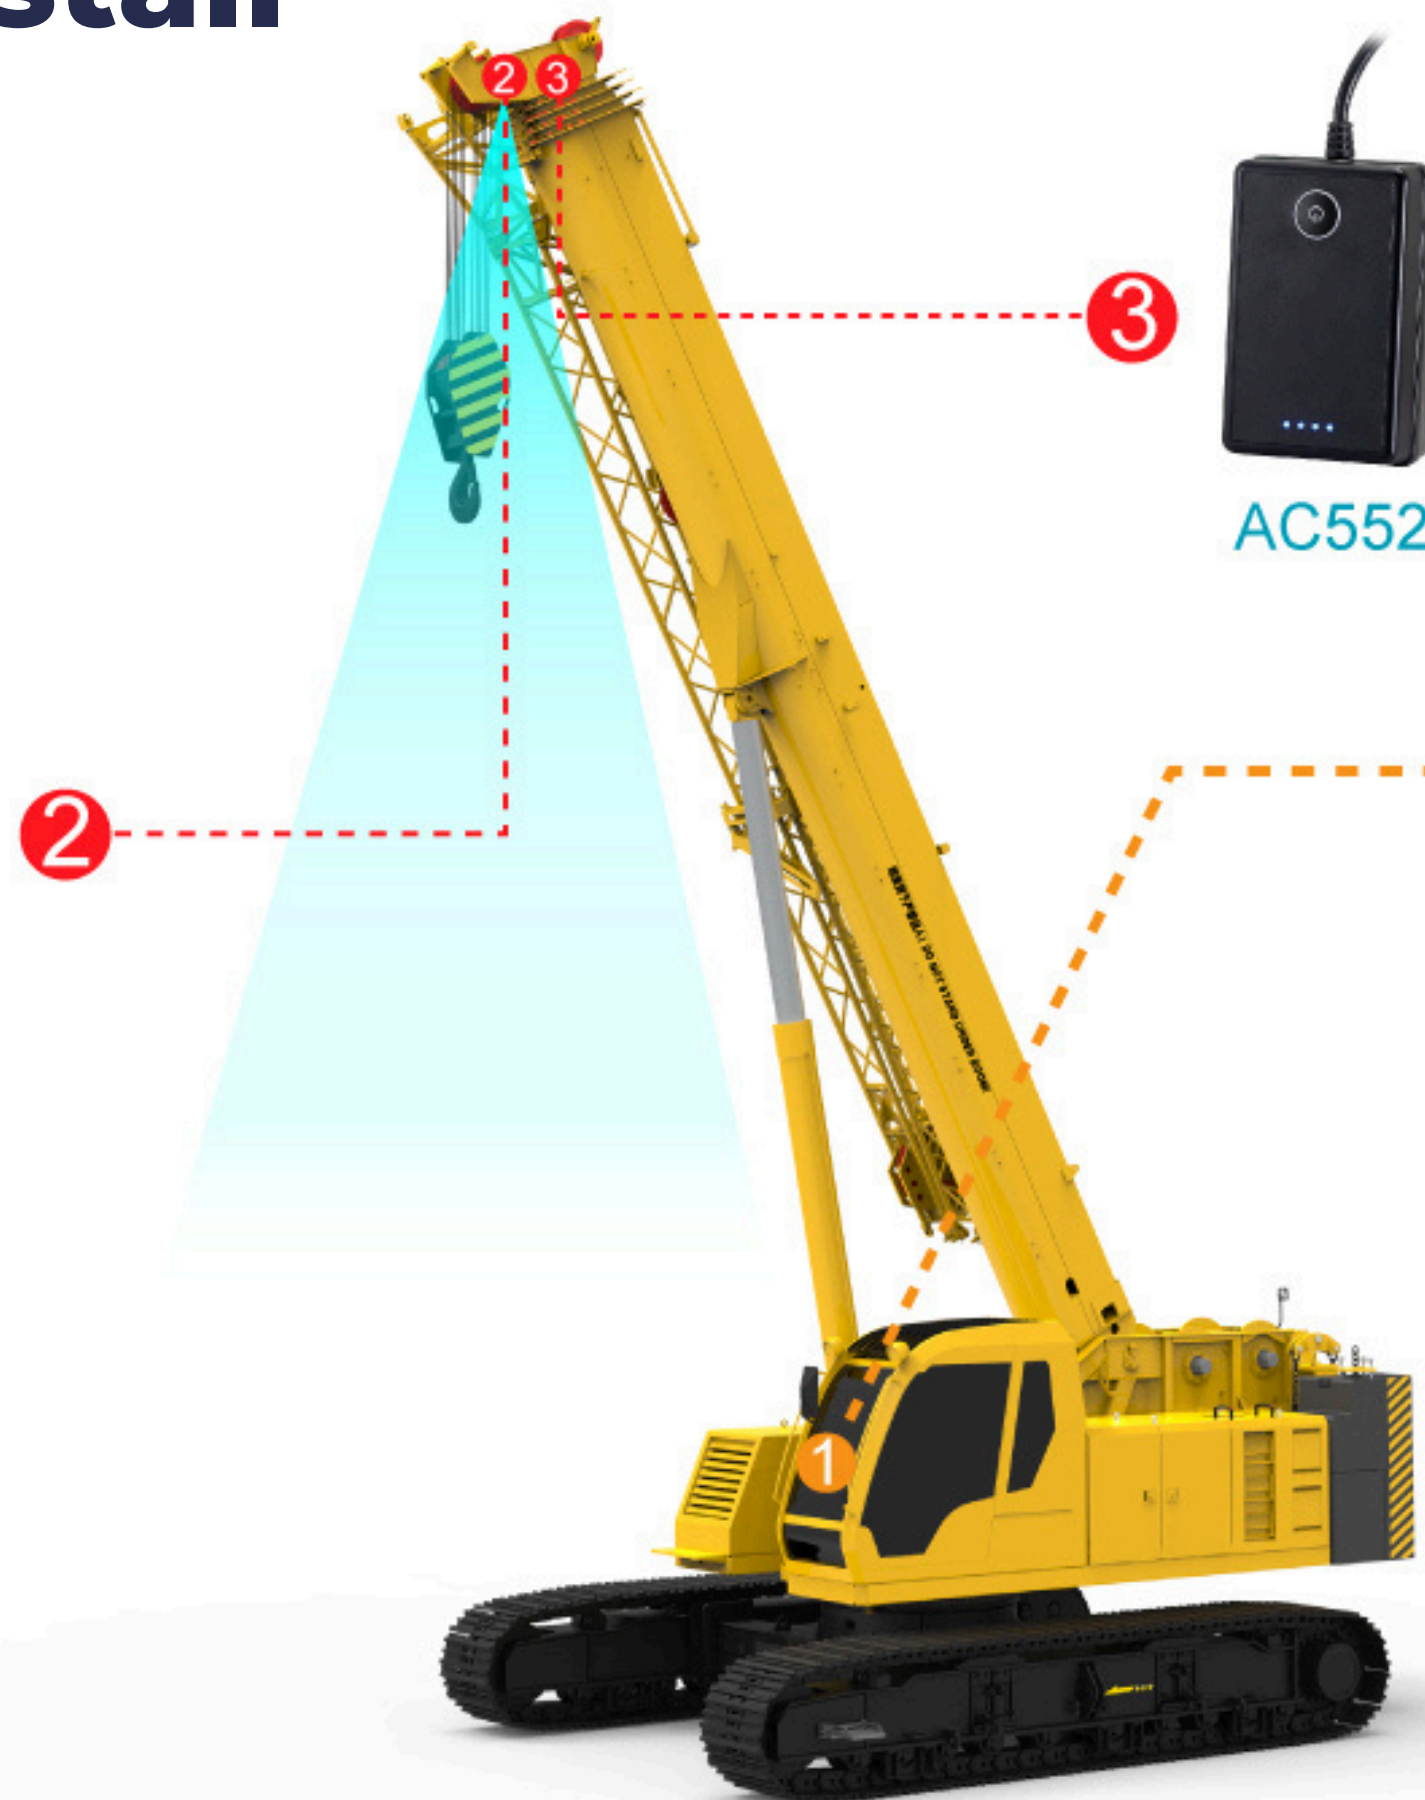

Clear vision at night operation.

How To Install

HDW845

AC552

HDW127Q

APPLICATION

- Applied to various applications in construction, mining, to achieve safe operation
